## **EU4EU - Selection Results**

The selection procedure evaluated the following indicators:

1. Presence of focus in EU project management (maximum 15 points);
2. Consistency of skills and experiences acquired in the training and professional field expressed in the CV and in the motivation letter with the expected training objective (see Article 1.1) and with the internship duties expressed in the Letter of Availability (maximum 50 points);
3. Assessment of language skills, as shown by the certification of English language/ self-declaration, and any other languages held by the candidate (maximum 15 points).

Furthermore, to encourage the presentation of applications as soon as possible and facilitate the selection of Host Organizations in the general interest of all Program participants, the following scores were assigned:

- 5 points to each candidate who completed the Pre-registration by 27 October 2022;
- 5 points to each candidate who completed the Matching phase by 14 November 2022.

In the event of two or more candidates with the same score, the priority in the ranking was established based on the order of arrival of the applications as resulting from the online application system. The Committee evaluated the candidates and created a single merit ranking. Candidates who obtained the minimum score of 50 will be deemed suitable.

All suitable candidates who achieved a useful position in the ranking were awarded the mobility grant until all the available scholarships are awarded.
